A message from the President of the Toronto Chapter

It is a pleasure to send this first message to all alumni since having been elected President in the April 1997 elections. In keeping with our objectives, our support to Queen's College over the years has come from donations and the profits realized from fund-raising activities. Our alma mater is grateful and we thank you for your continued support. For the future we would like to make an even more significant contribution to Guyana and feel that this could be achieved with greater attendance at our functions. As an immediate step, if you are not already a financial member of our Toronto Chapter, please consider joining today! I also urge you to participate fully in the activities planned for the 97/98 year as shown in this newsletter. Please enter the dates in your diaries and spread the word to others!

In particular, I would like to encourage our alumni in Canadian to attend the 1997 International Reunion in New York City (Aug 29 - Sept 2) This would be a golden opportunity to renew old acquaintances from so many countries, share memories and contribute financially to the maintenance of the glorious traditions of Queen's College. Hope to see you there!

On behalf of the new executive committee, I extend warmest greetings to all of you, our members and your families.

Letter from the editor

I recently spoke with Charlie Cambridge who is now a Professor of Business Studies at the California State University in Chico and some old memories came flooding back. I think the year might have been 1964.. 'Slanty' Rodway and 'Breezy' Eyre were trying to teach us English and 'Salvete' Hetram was thundering around spewing Latin and wearing his hair in the fashion of the Roman senators. Charlie Cambridge and his older brother were already as big as bears and as mean as junk-yard dogs. Tall, wiry Johnathan Exeter (from Wakenaam) was looking for 'a little respect'.

I don't know who started the quarrel or why, but the rumour circulated that Exeter and Cambridge were going to fight it out on Friday afternoon on the playing field. This was going to be a great battle!

Now that was around the time that the Russians had put the dog into orbit in Sputnik, and myself, Derrick Bernard, Frederick Sam-Lindo and Micheal Choo-Hum were busy trying to develop our own rocket fuel in an attempt to emulate the Russians. Our amateur rocketry society was under siege from David Fitt and his espionage group whose mission was to infiltrate our society and destroy our blueprints.

I missed that epic Exeter/Cambridge battle.. I still don't know the outcome!

Andy "Prof" Knight

Happy 50th Anniversary, Clement and Enid Yhap!

Best wishes go out to Clement 'Balance' Yhap and his wife Enid on the occasion of their 50th Wedding Anniversary. The QC Alumni Association wishes you many more happy years together.

Ray Luck piano recital

Article by Jane Chin

It wasn't 'summertime when the livin' is easy'. It was smack bang, right in the middle of winter. The forecast said, "SNOW STORM!" and kept Ray Luck, the featured soloist, snowbound in Lynchburg, preventing him from arriving until the very day of the concert.

Lynette Dolphin, 'Guyanese icon'

Lynette Dolphin was on hand, as a special guest of the QC Alumni Assoc., to introduce Ray Luck.. "An icon", the QC Alumni Association President said, when he introduced Lynette Dolphin. 'Head of the Music Department at QC'. Yes, that she was indeed. But she was infinitely more than that! Lynette was the mover and shaker of the Music Teachers' Association, the Music Festival, and together with her sister Celeste, the Guyana Broadcast to Schools program. Continued on page 4..

arrangement of *Uncle Joe/Hol' Im Joe*, dedicated to Miss Dolphin and first performed by Ray in Guyana, 1997. As a fellow West Indian, I feel Joe would not know he had to hold the donkey in *'the donkey want water'*, so modernistic and aesthetic was it. The icing on the cake was undoubtedly Robert Schumann's *Traumerei*. The audience loved it.. so unpretentious and delicate, the feeling not at all hard to find.

Hugh Sam presents Hall of Fame award

At the end of the evening, Ray's willingness and generosity were formally recognised when he was presented with a Hugh Sam's 'Hall of Fame' Award. (Hugh explained that there *should* be a Guyanese Hall of Fame and in anticipation of this, he designated Ray Luck as the first award winner. During a pause in the recital, Ray was startled and rendered speechless when a member of the audience put our thoughts into words by loudly and sensually proclaiming, "Ray, I *love* the magic you do with the ivories!" Bravo! (Jane Chin is a Guyanese living in Toronto and a *pupil of Miss Dolphin's to this day*)

Ray Luck Recital (cont'd)

Purveyor par excellence of the music of the great composers in Guyana, and Keeper of Guyana's music culture. Stunning in a full length Moroccan dress, Lynette treated us to a comprehensive overview of Ray Luck's musical career, from Town Hall performances "as a kid in short khaki pants" to his concert appearances the world over, the master classes and his Fulbright Fellowship in the Caribbean. Lynette reminded us that we are

inseparable from our roots. We are nurtured by our roots and rise and fall by them.. Guyanese we are and Guyanese we shall always be! The concert was a mellower, vintage Ray - academic, a sense of history and occasion, lyrical, technically sound. The program treated us to a theme based mostly on Naples and Venice, and thus the *barcarolle* and *tarentelle*. There were examples of these forms from Chopin, Schubert, Poulene and Liszt. Also included was Hugh Sam's
